

**NOTES**

1. Drawing should not be scaled.
2. Contractor must verify conditions on site and report any discrepancies to the Landscape Architect.
3. All requisite utility locates must be contained by the contractor prior to digging.
4. Existing trees on site to be retained at Landscape Architect's discretion with client's approval.
5. Existing trees in hard landscaped zones to receive grates to Detail.
6. All trees and shrubs to be installed must be supported with stakes 600 mm higher than them.
7. All deleterious material excavated from the site to be removed and replaced with topsoil and well rotted manure mixed in 4:1 ratios.
8. All plants to be inspected by the Landscape Architect prior to commencement of planting.
9. Written quantities of plant materials supersede the graphical representation.
